---

I'm a third-year Computer Science and Engineering student at Chitkara University with a strong foundation in software development and a passion for solving real-world problems through technology. I aim to collaborate on innovative projects, gain valuable industry exposure, and further develop my technical and problem-solving skills.

## WORK EXPERIENCE

---

- Frontend Developer Intern — Dyndox** **July 2024 – August 2024**
  - Worked on a no-code website builder platform, selecting and customizing templates to enhance visual design and usability.
- Associate Intern — Cosmic365.AI** **May 2024 – August 2024**
  - Supported the operations team with data organization, documentation, and Excel-based reports.
  - Researched and compiled affiliate links to assist marketing and outreach efforts.
  - Developed skills in time management, communication, and task coordination in a professional environment.

## PROJECTS

---

### DevTinder

Built “DevTinder” a MERN stack web app enabling developers to connect based on skills and interests, featuring authentication, profile management, and real-time connections.

### Waste Management Support System

Built a Waste Management Support System using the MERN stack, enabling customers to sell waste to companies, schedule pickups at their convenience, and receive payments, promoting efficient and sustainable waste handling.

## EDUCATION

---
